**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Conditions quite good, but significant wind chill at height. Inversion at mid to higher levels bringing limited confidence in the temperature detail above.

Forecast for Monday 27 Feb 2023

Weather: Majority enjoying another dry and sunny day with light winds. However turning cloudier from early afternoon with some scattered light showers developing later in the day, snow level 400-500m, mainly confined north and east of Newtonmore.

Maximum wind: East 10mph or less

Chance of cloud-free hill tops above 800m: Beginning 60% in far north, 90% plus in south, becoming later 25% in far north, 70% plus in south,

Low cloud and visibility: Excellent or very good, becoming moderate or poor in rain showers, very poor in snow showers also within cloud.

Temperature: **Glens:** Minus 2 Celsius recovering 8 Celsius for the afternoon
At 800m: Ranging from Minus 3 to Plus 2 Celsius dependent on the height of the inversion
Freezing level: Generally around 500m but with an inversion above
